

ACCESSIBLE LUXURY

Creating beautiful footprints for living

Ioanna Lennox Interiors (ILI) provides quality interior design services, specialising in terrace houses and period homes. With the team's flair and extensive knowledge, the company transforms homes into sophisticated, timeless spaces while enhancing their original architectural beauty and infusing them with contemporary luxury for modern living.

ILI believes in history and stories — taking into consideration the provenance of every house, as well as the stories of the people living in it, their likes, collectables and treasures, and the thread that binds them together. The creative team at ILI seeks to not just understand their clients' style and sensibilities, but to also get to know them at a

deeper level so they can bring their stories to life throughout the home.

Ioanna Lennox, founder and creative director of ILI, says: "That's what sets us apart and informs our process. We are a team of creatives and technicians, curators and purveyors. We never approach a project with a pre-determined design outcome in mind, but treat it as a journey of discovery and let our clients' needs and desires guide us."

With a network of expert architects, contractors, tradesmen and makers, ILI offers a complete design solution from start to finish, ensuring an efficient and enjoyable process for clients. Creating beautiful, layered and evocative interiors gives homeowners a new beginning and a reimagined footprint for living.

Such was one of ILI's recent projects, a Victorian-era home in Sydney's Mosman that had undergone various additions over time and needed to be resolved. While working within the existing footprint, ILI completely redesigned the kitchen and remodelled the bathrooms to create sanctuary-like spaces robust enough for the family of four, while layering a cohesive design language that embraced the owners' love of colour and art.

Passionate about quality finishes, ILI uses high-end products, materials and textures to create an incredible uplift in style and function. Whimsical yet approachable, the spaces that the team creates bring together beauty and form, for a cohesive and comfortable home environment.

What we love about ILI's interiors is that they are infused with a feeling of accessible luxury, warmth and glamour, while collaboratively weaving in clients' desires and aspirations. The award-winning designs not only add value to property, but fundamentally enrich the lives and capture the senses of the people who live in them.
